

“Corporate Photo Challenge”

*A fun, stimulating and creative
Photography Event for your Team.*

- Evening, day or half day event options.
- Learn creative photography techniques whilst enjoying a team event.
- Either at your venue or we can arrange the venue and catering.
- Tailored to your timings and numbers.
- Suitable for all technical levels.
- Can be delivered as a fun team challenge with prize for the team with the best photograph.

Option 1 – Creative Photography Day or Half Day

Tony is a professional photographer with a passion for sharing his ideas with others, particularly with regards to the creative aspects of photography. The workshop will explore how to compose great images, the different qualities of light and how to control exposure.

The day is dedicated to creative development rather than technical gadgetry and therefore suitable for all technical levels. Bring along any type of camera from camera phone to digital SLR.

The atmosphere will be stimulating, relaxed, fun and full of practical experimentation and challenges which can be tackled as small teams.

The day will end with a slideshow and critique of everyone's images and the selection by the group of a favourite image and winning team!

Option 2 – Photo Challenge Evening

A fun and light hearted evening of photography challenges. Following a 30 minute talk by Tony on creative photography composition tips, participants will be set challenges as either individuals or teams and will go around the venue to photograph certain tasks. We then slideshow and discuss one of everyone's images and give a prize to the best image of the evening.

The format is completely non-technical and suitable for any experience level of photography.

Prices

Please contact me with proposed numbers of participants, suggested dates and whether you would require a venue & catering or wish to hold the event at your own venue. Tailored prices will then be provided promptly.
